Overview

- Goal / Vision
- How we're the same as dotProject
- How we're different from dotProject
- Our current priorities
- The Future (and other random stuff)

The Goal

An Open Source project focused on meeting
real-world business needs and goals
in Project Management.

History

- Forked from dotProject v2.x Nov 2007
- Three team members
- Requirements and priorities derived from real-world users, customers, and priorities
- Commercial Support

We're the same!

- AMP-based
- Company Management
- Project Management
- Tasking
- Group Calendar
- Threaded Forums
- Contact Storage
- Document Storage
- Robust Permissions
- Basic Theming
- LDAP Integration

We're different!

- Major User Interface Overhaul -
<http://demo.web2project.net/index.php?m=projects>
<http://localhost/web2project-trunk/index.php?m=projects>
- Complete permissions rework -
http://demo.web2project.net/index.php?m=system&a=acls_view
http://localhost/web2project-trunk/index.php?m=system&a=acls_view
- Major performance improvements -
<http://demo.web2project.net/index.php?m=tasks>
<http://localhost/web2project-trunk/index.php?m=tasks>
- Reworking of permissions checking -
<http://caseysoftware.com/blog/vulnerability-disclosure-dotproject>
- Video-based Training -
<http://wiki.web2project.net/index.php?title=Projects#Videos>

Current Priorities

- v1.0... no, seriously, we mean it.
- 7 Open Issues
- Growing the community through presentations, reviews, sharing, videos, articles, blogs, professional groups, twitter, stickers on political candidates

Extensions/Additions

- Project Designer – promoted to core
- Project Importer
- Risk Management Module
- Timetrack
- RESTful API / AIR Application
- *Skyscraper*

The Future (cont)

- Estimation Tracking & Management
- Pluggable storage backends
 - Local currently; merge svn; add db, s3
- Advanced Scheduling Options
 - head/head, head-tail, tail-tail
- ~~Resource~~ People Management
